

COMMISSIONER FOR HUMAN RIGHTS

Adam Bodnar

Warsaw, 11 January 2017

H.E.  
Rolf Nickel  
Ambassador of the  
Federal Republic of Germany

Your Excellency,

I have heard with profound regret the sad news about the death of Professor Roman Herzog.

Looking back at public activities of Professor Roman Herzog, I have always admired His high moral standards in performing duties as the President of Germany between 1994 and 1999, as well as His huge contribution to the modern history of the European Union. He shall be recognized as an outstanding scholar, the author of numerous books and articles on constitutionalism, democracy, rule of law and fundamental rights and the Chairman of the Federal Constitutional Court between 1987 and 1994. For me, the German concept of *Rechtsstaat* will always have a face of Roman Herzog.

President Roman Herzog shall be remembered in Poland for his significant words addressed to the Polish nation, pleading for forgiveness, during Polish celebrations of the 50th anniversary of the 1944 Warsaw Uprising. This important gesture has started a new era in diplomatic relations between Germany and Poland and has given both nations a chance for a candid reconciliation.

As the Commissioner for Human Rights of the Republic of Poland I wish to emphasize the merits of Professor Roman Herzog in drafting the Charter of Fundamental Rights of the European Union, as the Chairman of the Convention that was responsible for the Charter's shape. It is splendid that the Charter is now legally binding and "living" instrument, acknowledging the EU citizens' fundamental rights and values of the EU legal order.

Please accept my deepest condolences on the passing of such a prominent politician, judge and scholar.

Yours sincerely,
